4. 8	5. 58	

1. Use yellow yarn (Citron) to wrap 19 rounds on the arm, making one layer. Then use red yarn (Matador) to wrap 11 rounds over a section of the yellow – this will make the heart eyes.

2. Use yellow yarn to wrap 9 rounds to the right of the red yarn.

3. To make the mouth, use brown yarn (Coffee Bean) to wrap 8 rounds next to the yellow layer you've just made. Wrap the rest of the arm with 58 rounds of yellow yarn. For the other arm, you can either repeat the steps to create another face on the other side or wrap it entirely in yellow yarn, using 105 rounds.

4. After cutting and tying the pom-pom, remove it from the pom-pom maker and trim it into a round shape that is around 1in (2.5cm) in diameter.

5. Lastly, use tweezers to arrange the yarn to create a neat smile and a pair of heart eyes.
